Risk Warning: This information has been provided by The Ultima Products HK Limited for its Distributors to inform their customers. It is not intended to be used as investment advice, or as a recommendation to buy, hold or sell a structured product. The intention is to provide some guidance for you to understand the nature of the risks and potential rewards of the product for you to decide, if it's right for you. Individual circumstances have not been taken into account – you should seek an opinion from an external source to help determine the suitability and appropriateness of this investment. Investments can go up as well as down, and you may lose some or all of your capital when purchasing structured products.
The manufacturer designed this product for a theoretical investor and suggests you liaise with the distributor to ascertain if you fit the criteria of its intended target market. You are aware that the underlying asset can include an Exchange Traded Funds/ Exchange Traded Trusts (ETF/ETT) with exposure to Crypto Tokens. Since the underlying assets are extremely volatile, these ETF/ETT products are considered as high risk, the value of which can fall as quickly as it can rise. These products are complex and the associated risks may be hard to understand. You may lose, all or part, of their investment. Consequently, investing in and holding these products is not comparable to investing in traditional investments. The underlying Crypto Token ETF/ETT may not always be liquid or transferrable and may be vulnerable to cyber theft.

This investment may be right for you if:

- You are a **retail investor with an advanced level of knowledge regarding the financial markets and financial instruments AND understand the specific factors including the risks highlighted in the literature provided to you AND you also have previous experience of investing in products like this one.**
- You are looking for **income paid Every four months following the valuation date, linked to the performance of the underlying assets Netflix, Advanced Micro Devices, PepsiCo, Microsoft Corporation, Apple.**
- You understand that on **Every four months** basis, on any given observation date, unconditionally you will receive the coupon payment.
- **You are looking to risk your capital, and in the event of the product not performing as anticipated, you will receive the** amount of the product of the Current Price of the Worst Performing Share and the Volume within 5 Business Days from the Maturity Date. The Volume shall be calculated as the Notional divided by the product of the price coefficient and the Initial Price of the Worst Performing Share rounding down to the nearest whole number.
- **You understand that on Every four months basis on any given observation date if all underlying assets are at or above their Autocall Price, the product will redeem early and return the initial capital to you, including coupons and other payments that may be due**
- You may be looking to re-invest capital from previous Structured Product Investments which have matured or are about to mature
- You understand how debt-based investments work and may already hold such investments
- You want the potential to secure an investment, return above that available from a deposit-based investment and acknowledge and **accept the Summary Risk Indicator set out in the Key Information Document (KID)**
- **Accept that you could lose capital and be able to afford to do so**, if the underlying assets were to decline below coupon barrier at the end of the term of the investment period
- You understand that **in extreme circumstances you could lose all of your money** if the issuer, manufacturer or distributor were to default, including if one of the underlying assets becomes insolvent
- You are willing and able to **tie up your money for the entire term** of the structured product for the objective of income

This Investment may not be right for you if:

- **You do not understand how this investment works**
- **You are unable, or unwilling, to accept the risks associated with this product, including the loss of some or all of your money**
- **The product does not meet your investment objectives**, including if you are solely looking to achieve growth, not income, and you consider yourself as being a conservative investor.
- **If you do not understand market risk and have never invested in stocks or bonds**

- **You are close to or at retirement age with an income below 20,000 Euros (or equivalent) and less than 40,000 Euros (or equivalent) total liquid assets (stocks, bonds and savings etc.) not including your property.**
